## **SEASONS and WEATHER**

The Czech republic is situated in a mild climate zone. This means that we have got four seasons. We have got a continental climate. This means that winters are not too cold and summers are not too hot.

Every season of the year lasts for three months and brings with it something new and nice.

### **SPRING**

Spring starts on March 21st. In the spring flowers start growing and the grass starts turning green. The nights are shorter and the days get longer. One moment the sun is shining and it feels warm, the next the sky becomes overcast and it starts to rain. In the spring it always pays to carry an umbrella or at least have a raincoat.

### **SUMMER**

Summer begins on June 21st. In the summer the sun's rays become more intense. The thermometer climbs to several degrees above zero. Storms are very usual in the summer. The sky turns overcast with dark clouds that hide the sun. For children, summer means a two month-long holiday. The families spend most of it together. People go swimming, go blueberry picking. They do barbecues.

### **AUTUMN**

Autumn starts on September 23rd. Many people like the autumn because of its diverse colours. A cold and sharp wind starts blowing. Children fly kites and people pick mushrooms. It is foggy and rainy and people get depressed because of the weather. The sun goes down early and comes up late.

### **WINTER**

Winter begins on December 21st. There is a lot of snow everywhere. In the mountains the snow lasts the longest. People come here from all corners of the country as well as from abroad to go skiing. Many of us connect winter with the most beautiful holiday of the year - Christmas. People are happy, they give presents to one another and enjoy making other people happy. Children love to make snowmen during the Christmas holidays. On December 31st comes the New Year's Eve celebrations.
